# Gabriel Osborn

Lancaster, OH | (740) 371-6842 | gabriel.m.osborn@protonmail.com | gabrielosborn.com

## Professional Summary

Hands-on Lead Technician with a strong software development background and experience in production floor management, mechanical repair, precision machinery, and inventory control. Self-taught in Python and C++ since high school, recently expanding into full-stack web development, SQL, and API integration (Plaid, Google Maps, Discord). Proven ability to rapidly learn complex systems and execute projects end-to-end, from building custom software to diagnosing fluid systems and directing floor operations for 1,000,000+ piece press runs.

## Education

**High School Diploma | *May 2023* | *Worthington Kilbourne***
· 3.5 GPA

## Experience

**PERSONAL PROJECTS | *April 2022 - Present***
***INDEPENDENT WEB DEVELOPER***
· Spearheaded independent learning of full-stack web development, C++, Unity, and Blender; rapidly adapting to new frameworks to execute end-to-end project lifecycles.
· Developed 3 free macOS apps in Swift: a media downloader, a Discord video splitter and a controller-to-keyboard tool.
· Architected a scalable Node.js Discord bot utilizing a SQLite database for persistent data storage, automating user activity tracking and dynamic role assignment.

**RR DONNELLEY | *March 2026 - October 2026***
***KODAK INKJET TECHNICIAN***
· Promoted to operate Kodak inkjet systems, adding variable data to press runs of 1,000,000+ pieces.
· Installed and disassembled fluid stations, print heads, dryers and control computers on presses for each job.
· Maintained variable print registration using speed encoders and laser cue-mark sensors,
· Ran constant quality checks and making run-or-stop calls with direct cost impact.
· Managed and loaded up to 100 GB of job data into the print system.

**DOLLAR GENERAL | *November 2024 - April 2025***
***LEAD STORE ASSOCIATE***
· Processed 200+ daily transactions with high cash-drawer accuracy while assisting 100+ guests daily.
· Independently opened the store, often for shifts exceeding 14 hours.
· Trained new employees on POS operations, store policies, and customer service standards.

**VERTIV | Contracted via ODW Logistics | *October 2023 – April 2024***
***LEAD TECHNICIAN / OPERATIONS TRAINER***
· Selected by leadership to help launch a new facility, train staff, and establish operational procedures.
· Maintained strict safety compliance when handling delicate/heavy products (up to 60 lbs) while diagnosing and troubleshooting technical issues.
· Assumed shift-lead responsibilities, managing a 1,000+ item inventory database while contributing 20 hours of overtime weekly to diverse operations.

## Certifications / Skill-Building

**Google Data Analytics |** 2023

**Full-Stack Web Dev & DSA (udemy) |** 2024 - Present

**ACT WorkKeys (NCRC)** — Platinum Level (*Verified Badge / Certificate #: T3G4HW400CDY*)
· Level 6: Applied Math, Graphic Literacy & Workplace Documents

**Rubber Meets the Road Award (2024)** - ODW Logistics

## Soft Skills

· Customer/client satisfaction
· Adaptability
· Willingness to Learn
· Technical Troubleshooting
· Problem-Solving Abilities
· Leadership & Floor Management

## Hard Skills

· Process Documentation / SOPs
· Equipment Setup, Maintenance & Repair
· Variable Data Printing (VDP)
· Data/XLS/Inventory/Material Management
· Full-Stack Dev (Node.js, Swift, C++, SQL)
· Quality Assurance (QA)
